

## Experiment Number: 01

### Aim:

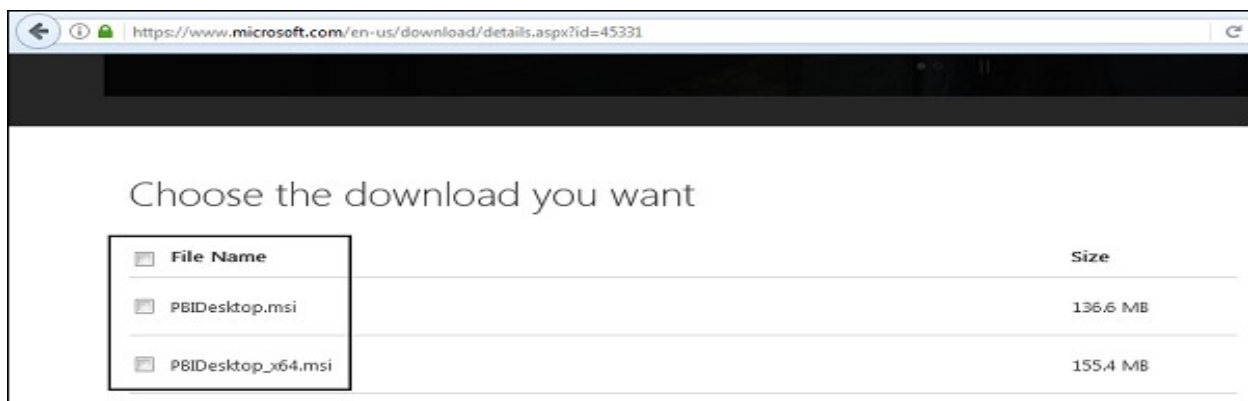

Installation and overview in power BI Desktop.

### Procedure:

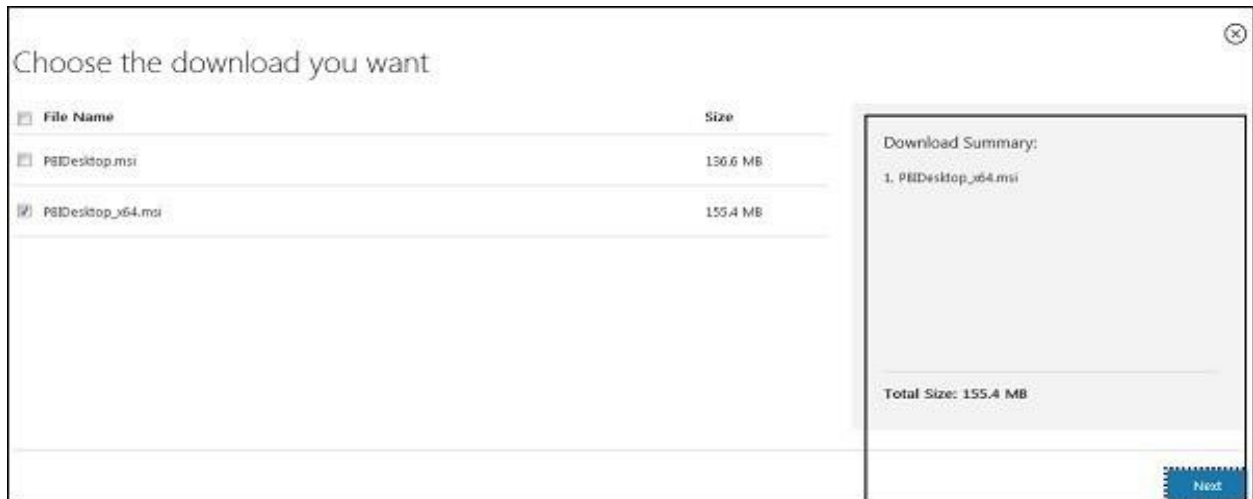

- Users can select a language in which they want to install Power BI and following files are available for download.

- This is the link to directly download Power BI files –
- <https://www.microsoft.com/en-us/download/details.aspx?id=45331>

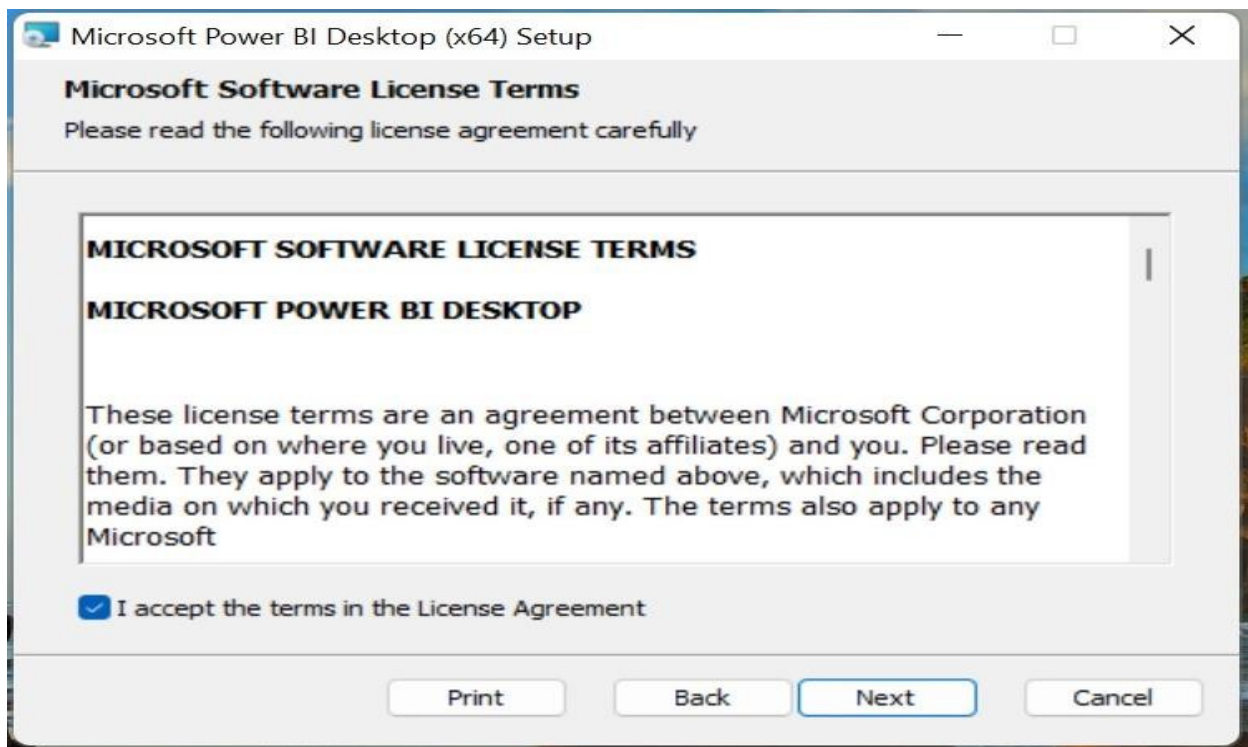

- PBIDesktop\_x64.msi shows a 64-bit OS file. Select the file you want to install as per OS type and click Next. Save the installation file on the local drive.

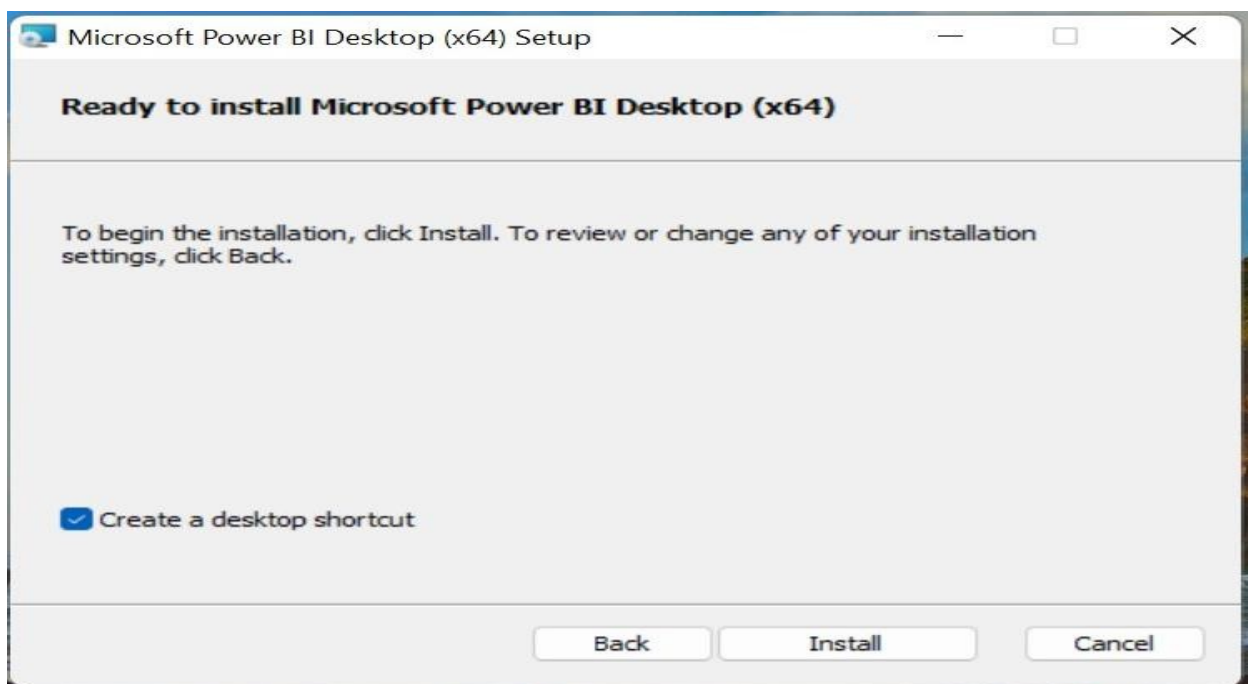

- When you run the installation file, following screen is displayed.

- Click on Next to continue the process of installing the software.

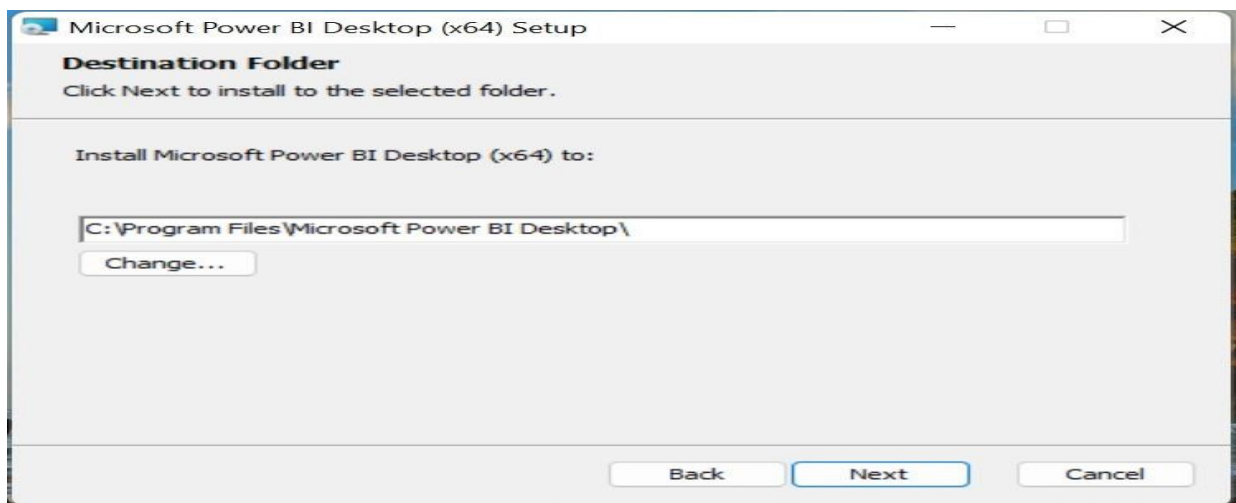

- Accept the License agreement and click on Next.

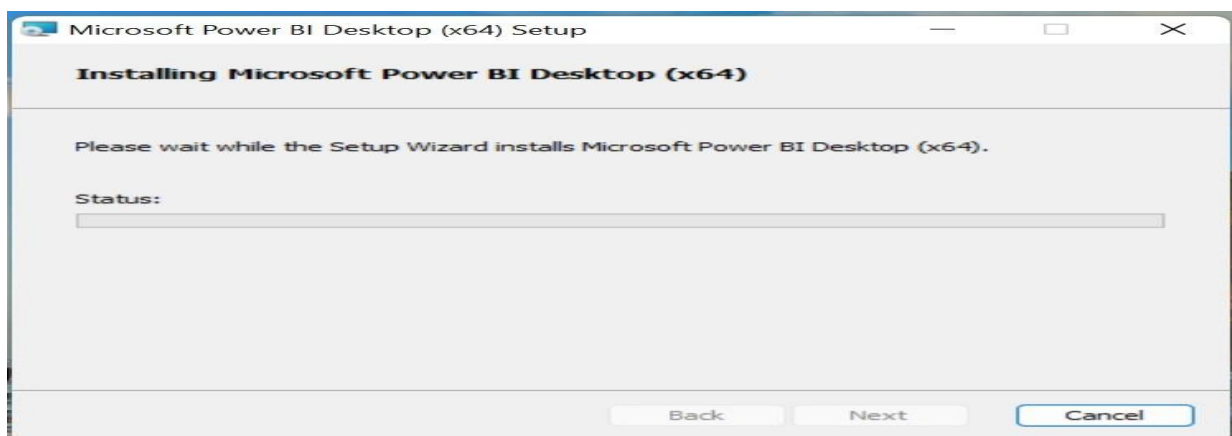

- Check the box for creating the desktop shortcut for easy access and then click install.

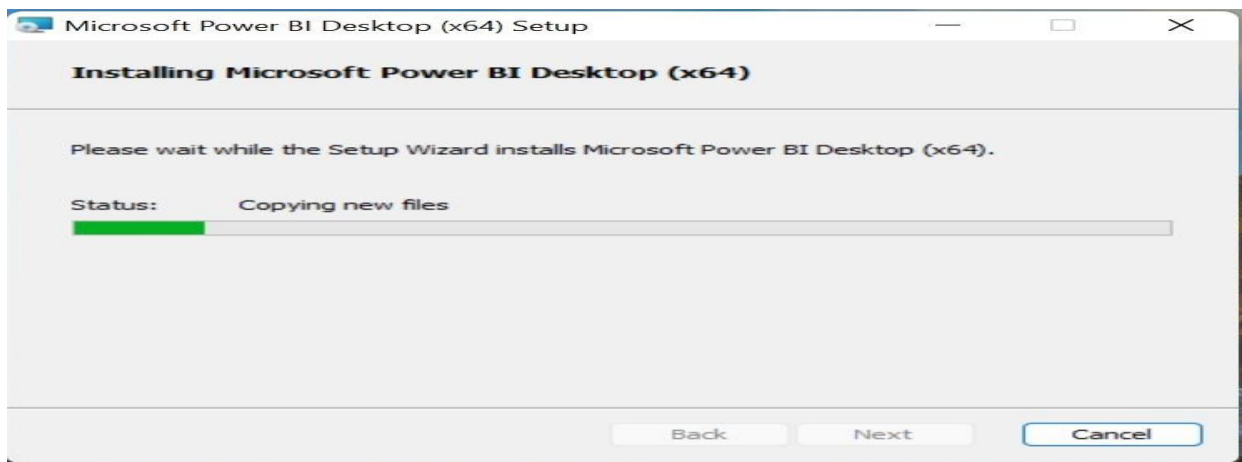

- Click on Yes to allow app to change in your device and choose the path where to install.

- Follow the status bar until the installation.

- When Power BI is installed, it launches a welcome screen. This screen is used to launch different options related to get data, enrich the existing data models, create reports as well as publish and share reports.
